ALBERTA LIQUOR CONTROL BOARD,
EDMONTON, JANUARY 21, 1927.

HONOURABLE J. F. LYMBURN,
Attorney General,
Parliament Buildings,
EDMONTON, ALBERTA.

SIR:—

I have the honour to transmit herewith the Report of the Alberta Liquor Control Board for the year ending 31st December, 1926.

I have the honour to be, Sir,

Your obedient servant,

R. J. DINNING,
Commissioner.

REPORT

OF

ALBERTA LIQUOR CONTROL BOARD

INTRODUCTION

Since submitting the Annual Report of the Board for the year 1925 no changes of importance have been made in The Liquor Act.

During the current year 11 local option plebiscites have been held, resulting in local option being carried in four and defeated in seven districts. Where local option was carried, existing licenses, if any, were cancelled immediately the result of the vote was published in *The Alberta Gazette*.

The total cost of holding these 11 plebiscites amounted to \$563.37, and this charge was absorbed by the Board in accordance with the provisions of the Act.

As in the previous reports rendered, detailed statements by way of appendices are incorporated showing the activities of the various branches of the organization and also any items which the Board considers are of interest to the public. Where these appendices have been given in detail in previous reports the subject matter has been abbreviated to avoid unnecessary repetition.

GOVERNMENT LIQUOR STORES

The Board, in response to applications from a number of centres for the establishment of additional Government Liquor Stores, again made a careful survey of the Province, but its findings did not disclose any immediate need for augmentation of the existing chain of stores and in consequence no new stores were opened.

The facilities provided whereby liquor (other than malt liquor) can be shipped by express with transportation charges paid by the Board, or by mail at a nominal additional cost to the permit-holder, together with the numerous brewery warehouses which ensure a wide distribution of beer, lead the Board to believe that the needs of the permit-holding public are reasonably well provided for.

BEERS

Some progress has been made by the brewers in consolidating the beer-distributing facilities in the smaller centres, but there is still ample room for material improvement.

Until the brewers co-operate in cutting down their elaborate and expensive overhead in connection with the distribution of beer and eliminate the heavy investments being made directly or indirectly in purchasing or financing licensed hotels, there is very little hope of any reduction in the price of beer.

In conformity with the policy previously adopted, samples of beer have been taken at frequent intervals from the various breweries

and brewery warehouses and thereafter analysed by the Provincial Analyst.

The reports submitted to the Board have in all instances proven the various products to be well up to the standard, both as to quality and alcoholic content.

The samples taken showed the average alcoholic content to be 3.67 per cent by weight.

In addition to those taken from the brewery premises numerous samples were taken from the beer-rooms of hotels and in all instances the resultant analysis testified to the satisfactory quality of the beer offered for sale.

PURCHASES OF LIQUOR

The policy of purchasing in limited quantities has been adhered to and purchases made during the year 1926 are shown in Appendix "B."

In the opinion of the Board the stocks now carried approximate the minimum for the business done and on the basis of the sales for 1926 insure a frequent turnover of the capital invested

The Board has not deviated from its policy outlined in the Report for 1925, in confining its purchases to well known brands and has taken the opportunity of eliminating any brands for which enquiry was only made at infrequent intervals.

WINES

The experiment of purchasing domestic wines in bulk and offering them for sale at reasonable prices in 1-gallon and 2-gallon containers has apparently met with the approval of the permit-holding public and the policy will therefore be continued and amplified from time to time should any appreciable public demand be evidenced.

The sale of imported wines continues to be small in volume.

The Board is at present negotiating with a view to arranging the importation in bulk of low-priced European and Australian wines.

In considering this matter adequate protection must be arranged for, as great care is necessary, in order to avoid loss in bringing the product through the extremely high temperatures encountered en route.

INSURANCE—FIRE

In the early part of this year a sprinkler system was installed throughout the warehouse occupied by the Board in Edmonton with the result that the insurance rate was reduced from 44 cents per cent. to 18 cents per cent.

The Board has also been successful, during this period, in having the rate on the Calgary warehouse reduced from 30 cents to 22½ cents per cent. These reductions at points where the bulk of the stock on hand is warehoused have resulted in important savings being effected under the heading of insurance premiums.

PERMITS

The sum of \$131,127.75 was realized from the sale of permits and was paid over to the Provincial Treasurer in accordance with the provisions of the Act.

The amount is therefore not included in the financial statements of the Board.

Appendix "A" shows in detail how the revenue from the sale of permits is made up.

PERMITS CANCELLED

339 permits were cancelled during the year, and of this number 186 were held by persons interdicted.

INTERDICTION

497 persons were interdicted during the year, and of this number 311 did not hold permits.

During the same period 238 orders of interdiction were revoked, leaving 623 interdictions still in force at the end of the year. These interdictions cover the entire period during which the Act has been in force, viz., from 10th May, 1924, to date.

BREWERS

No change has taken place in the number of brewery licenses issued, although the Silver Spray Breweries, Limited, is now operated by the Calgary Brewing & Malting Company, Limited, which company has acquired the capital stock of the concern.

Appendix "C" shows the licenses issued to brewers and also the record of suspensions of warehouse privileges for infractions of the Act.

HOTELS

Beer licenses issued under the provisions of sections 32 and 33 of the Act have been issued to the licensees of 349 hotels.

Since the date of our previous report the general standard of the hotels has been maintained and in many instances improved. This is more especially noticeable at country points.

In addition to the licenses granted, applications were received from 32 persons, but were refused for varying reasons.

Details of beer licenses issued are shown in Appendix "D" which list also gives particulars of penalties exacted during the license year.

CLUBS

As foreshadowed in the report for 1925 the hours during which licensed clubs are permitted to sell beer to bona fide members have been curtailed, and outside the cities where the closing hour is 11 p.m., the remainder are required to close the beer sales room at 10 p.m.

Speaking generally, the licensed clubs have been well conducted during the year, but there is room for improvement in some instances, and unless this is forthcoming it may be necessary to further curtail existing privileges.

Licenses entitling them to sell beer to bona fide members were issued to 49 clubs and a note of those disciplined during the year will be found in Appendix "D."

CANTEEN LICENSES

Beer licenses were issued to fourteen canteens.

INSPECTION OF LICENSED PREMISES

Frequent inspections of the premises of all licensees have been made throughout the year and the reports thus obtained have enabled the Board to form an opinion as to the efforts of the licensees to carry out our requirements.

Although the manner in which the majority of licensees have conducted their premises has been satisfactory, there are still a number who apparently fail to realise their responsibilities and by their indifference are seriously jeopardizing the interests of their more punctilious colleagues.

Any licensee who does not observe all the regulations or who is convicted of any infraction of The Liquor Act may expect a drastic curtailment of the privileges granted.

FLAVORING EXTRACTS, PATENT MEDICINES AND ALCOHOLIC PREPARATIONS

The arrangements outlined in previous reports have proven satisfactory and no change in the method of handling these preparations is contemplated.

PRESCRIPTIONS BY MEDICAL PRACTITIONERS

During the year 1926 the Government Liquor Stores have filled 2,469 prescriptions issued by the members of the medical profession. In order that prescriptions which call for small quantities of liquor can be accurately filled, all Vendors at the Government Liquor stores are supplied with a sufficient quantity of brandy and alcohol put up in vials. Brandy is carried in $\frac{1}{2}$ -oz. and 2-oz. vials and alcohol in 2-oz. and 8-oz. vials and these special quantities are sold on prescription only.

CONFISCATED LIQUOR

Great care is exercised in dealing with confiscated liquor. Samples are submitted to the Provincial Analyst, and if there are the slightest grounds for believing that the liquor is not up to the full standard it is destroyed under authority from the Attorney-General.

Appendix "E" shows the manner in which liquor ordered confiscated by the courts has been dealt with.

The proportion which after examination was found to be genuine was purchased by the Board and settlement amounting to \$1,614.84 made to the Department of the Attorney-General and the remainder destroyed under authority from that department.

MANUFACTURE AND SALE OF ILLICIT LIQUOR

The manufacture and sale of "moonshine" has been still further curtailed during the year, but our efforts to suppress the manufacture of this pernicious liquor places an additional heavy burden on our Law Enforcement Officers.

The Board respectfully submits that the enforcing of the Excise laws is purely a function of the Dominion authorities and with a large number of experienced Federal officers stationed in the Province the Provincial Government should be entirely relieved of this work.

LAW ENFORCEMENT

It is again the privilege of the Board to be permitted to express its appreciation of the continued support and assistance rendered by the Alberta Provincial Police and also by all City and Municipal Police Forces throughout the Province.

The co-operation and mutual good feeling existing between these forces and the members of the Law Enforcement Branch of this Board is a matter for keen gratification.

The Board also takes pleasure in acknowledging the assistance and work of the Royal Canadian Mounted Police in enforcing the provisions of the Act in the National Parks.

The services of our own staff of Enforcement Officers have been highly satisfactory.

Investigations undertaken by this branch have necessitated the travelling of 80,000 miles by train and 180,000 miles by automobile.

The Board is indebted to those members of the public who have been good enough to draw our attention to infractions of the Act in outlying districts and also in the larger centres.

Prompt advice acted upon without delay has resulted, in many instances, in dealing with infractions at their inception and before they have assumed serious proportions.

As previously intimated, the Board regards enforcement of The Liquor Act as of primary importance, and in order to keep in close touch with the situation segregates offences into two classes—Major and Minor offences—the former including the manufacture and sale of “moonshine” regarding which reference has already been made in this report. During the year under review “Major Offences” show a slight reduction over 1925 figures, whereas “Minor Offences” show an increase. It is apparent that until the general public has a more detailed knowledge of the requirements of The Liquor Act, minor infractions will continue to be numerous.

The Board has under consideration the advisability of specially drawing to the attention of each purchaser at the Government Liquor stores prohibitions owing to the disregard of which many of the minor offences can be traced.

In Appendix “F” will be found a summary of charges and convictions made under The Government Liquor Control Act of Alberta during the year 1926 and also a summary of convictions for drunkenness under other statutes, which information has been gathered from sources available.

The activities of the Law Enforcement Branch will be found in Appendix “G.”

FINANCE

The capitalization of the Board referred to in the Annual Report for the year 1925 has remained at Five Hundred Thousand Dollars, for which sum the Board is indebted to the Province and upon which advance interest is paid at the rate of $5\frac{1}{2}$ per cent per annum.

Owing to the Board's policy of keeping stocks at the minimum, any borrowings from the Bank in 1926 were for a short period only and were repaid before the end of January, since which date the capitalization referred to above has been sufficient to take care of all

commitments. The total interest paid to the Bank during 1926 amounted to \$15.20.

PRICES OF SPIRITS

It is now generally recognized that little hope can be extended of any material reduction in prices so long as the Federal duty and sales tax remains as it is.

In the report for 1925 we quoted figures to show the proportion of the sale prices of certain products which were made up of duty and taxes, and there would appear to be little object in reiterating the examples.

During the year 1926 the Board and the brewers of Alberta have between them paid to the Dominion Government a sum in excess of \$2,413,000 by way of Customs and Excise duties on liquors and spirits, taxes on beer, excise tax on malt, etc., and sales tax on the various products sold.

STAFF

The Board takes particular pride in referring to the loyalty, integrity and efficiency of the entire staff.

There have been times, peculiar to this business, when exceptional effort has been demanded from them and in no instance have they, in any particular, failed to respond to the utmost of their capabilities.

GENERAL REMARKS

In order to take advantage of the abnormally low exchange obtaining at that time for the French franc the Board placed orders in June for French brandy sufficient to take care of normal sales for some twelve months.

The trend of French exchange since these purchases were settled for in July has been consistently upward, but no increase in the retail price of brandy in this Province is contemplated until present stocks are exhausted.

Shipments by express from the Government Liquor Stores and Warehouses during 1926 show a total of 34,812 packages despatched at a cost for transportation of \$16,667.11, which sum was absorbed by the Board.

During the same period 2,218 packages were sent to permit-holders through the mails from the Board's warehouses in Edmonton and Calgary, at a net cost to the Board for postage of \$880.52.

From the Government Liquor Stores and Warehouses 775,670 individual purchases of liquor and beer were made, the average cash value of each purchase being \$5.50.

Clearances numbering 3,250 were made from the two Customs & Excise Bonds maintained at Calgary and Edmonton and 502 shipments were placed therein during the same period, necessitating in all 3,999 entries.

As the Board handles its own Customs work, an expenditure approximating \$5250, which would otherwise have been paid to Customs Brokers for the work, was avoided.

In order to compare results with 1925 the following figures calculated, as before, on a quantity basis give the percentage of the sales of each class of liquor to total sales:

| | Sales in Gallons | Percentage to Total Sales |
|--|---------------------|------------------------------|
| Beer, Ale and Stout..... | 3,884,000 | 94.07% |
| Wines..... | 105,000 | 2.55% |
| Spirituous Liquors (other than alcohol)..... | 135,000 | 3.27% |
| Alcohol (including sales to druggists, hospitals, manu- facturers, etc.)..... | 4,800 | .11% |
| | | <hr/> 100.00% |

In conformity with the established policy of the Board all purchases of liquor have been made direct from the distillers and manufacturers. Discounts and allowances amounting to \$18,226.05 have been obtained, and are included in the financial statements.

Disputed freight charges have resulted in the collection of refunds amounting to \$1,987.09 during the year.

From the total of the Gallonage Tax paid to the Board by the Alberta brewers during the year it is shown that the latter have sold approximately 3,756,000 gallons of malt liquor within the Province during 1926.

During the same period some 484,000 gallons were exported to the Control Board of a neighboring Province, and a rebate of the gallonage tax paid in respect to these shipments was made by the Board.

CONCLUSION

The Board is deeply appreciative of the continued support and sympathetic co-operation of the general public, without which its functions would be handicapped to a large extent.

All of which is respectfully submitted by,

R. J. DINNING,
Commissioner.

H. GORSE, C.A.,
Chief Accountant.

R. J. DINNING,
Commissioner.

Edmonton, Alberta, February 2nd, 1927.

I have audited the books and accounts of the Alberta Liquor Control Board for the year ended December 31, 1926, and find that the above Balance Sheet, at that date, and the accompanying Profit and Loss Account are in accordance therewith.

I certify that, in my opinion, the above Balance Sheet is properly drawn up so as to show the financial position of the Alberta Liquor Control Board as of December 31, 1926, and the annexed Profit and Loss Account states the result of operations for the year ended at that date. All my requirements as Auditor were complied with.

JAMES C. THOMPSON, C.A.,
Provincial Auditor.
